

# LAND RECOVERY

## ENVIRONMENTAL POLICY

Land Recovery Ltd and Land Recovery Rail Ltd recognise that there is an increase in demand that products and services are environmentally sustainable, and that steps to prevent pollution should be undertaken in an endeavour to rebuild a healthy global environment. (from herein all references to Land Recovery Ltd will imply the same to Land Recovery Rail Ltd)  
As a business that is heavily involved in waste and product recycling, it is committed to its continual improvement of its environmental performance:

- Ensure continual improvement of our management systems by setting ourselves robust objectives which will be documented, monitored and reviewed throughout the year.
  - Environmental objectives will be set based on evidence and requirements from the following documented information:
    - Risks and opportunities register
    - Aspects and impacts register
    - Trending internal non-conformities
    - Needs and expectations of interested parties
- Ensure that its works are sympathetic to the environment; paying close attention to the storage, treatment and disposal of any hazardous or potentially toxic material to avoid environmental harm. Only when waste cannot be treated by Land Recovery Ltds own wash plant facility will it be disposed of by a registered waste management disposal company.
- Wherever practical, use materials and products originating from sources which can be shown to be sustainable and which are re-usable or can be recycled.
- Pay particular attention, to the emission of pollutants, reduction in noise, dirt and to taking the most stringent precautions to avoid health hazards and ensuring that environmental impacts are minimised during its activities.
- Continue to develop an environmentally aware approach to the management of the company, recognising also that sound management of energy and resources in land and materials cuts cost and create competitive advantages.
- Continue to develop and practice in house environmentally caring policies covering its use of premises, sites, plant and other assets. The company will also continue to promote energy efficiency and sound environmentally sensitive practices.
- Use traditional methods and continually seek innovative and proactive ways in which to recycle our waste.
- Review this policy at least annually.

To meet our commitments all staff must comply with the requirements placed upon the business and in addition to the practices documented within our Business Systems Manual and procedures which conform to the conditions and scope of our ISO 14001 certification.

This Environmental Policy will be made available to all staff at induction, via the Company One Drive and on company notice boards. The Policy is available to view by interested parties via the Land Recovery Ltd upon request.

This policy shall be reviewed as a result of significant changes or at least annually as part of the Management Review process defined in the Land Recovery Ltd Business Systems Manual.
